Transfer Patterns .....	41

## Preface

This bibliography is a list of bloodstain pattern analysis literature that has been collected by the Scientific Working Group on Bloodstain Pattern Analysis (SWGSTAIN) Research Subcommittee. The literature was located within scientific journals, newsletters, technical reports, books, web pages, theses, conference papers, law reports and magazines. The five hundred and thirty eight titles have been placed into twenty-nine groups and are list alphabetically within each group. There are duplicate references within the various groups. This list will be updated periodically on the SWGSTAIN web site.

The research subcommittee would like to acknowledge the contributions from the SWGSTAIN membership, the Midwest Forensics Resource Center, the Federal Bureau of Investigation, the Institute of Environmental Science and Research, Trent University and the Ontario Provincial Police for their support with this project.

SWGSTAIN Research Subcommittee

## Aging Blood

1. Aikman, R.L. and D.R. Foran, *Nucleic Acid Based Methods for Assessing the Age of Bloodstains*, in *60th Anniversary Meeting of the American Academy of Forensic Sciences*. 2008: Washington, D.C.
2. Anderson, S., et al., *A Method for Determining the Age of a Bloodstain*. *Forensic Science International*, 2005. **148**: p. 37-45.
3. Hesselink, W.F., *Blood Tracks in the Criminological Practice*. *Ztschr. angew. Chem.*, 1931. **44**(31): p. 653-655.
4. Hortola, P., *SEM Analysis of Red Blood Cells in aged Human Bloodstains*. *Forensic Science International*, 1992. **55**: p. 139-159.
5. Kish, P.E. and G. Hall, *A 12-Day Study Evaluating the Durability of Bloodspatters on Shoes*, in *American Academy of Forensic Sciences*. 1999: Orlando, Florida.
6. Laber, T.L. and B.P. Epstein, *Substrate Effects on the Drying Time of Human Blood*. *Journal of the Canadian Society of Forensic Science*, 2001. **34**(4): p. 209-214.

## Biomechanics

1. Chadwick, E.K.J., et al., *Biomechanics of Knife Stab Attacks*. *Forensic Science International*, 1999. **105**: p. 35-44.

2. Hamill, J. and K. Knutzen, *Biomechanical Basis of Human Movement*. 2nd ed. 2003, Philadelphia: Lippincott Williams & Wilkins.
3. Miller, S.A., Jones, M.S., *Kinematics of Four Methods of Stabbing: a Preliminary Study*. Forensic Science International, 1996. **82**: p. 183-190.
4. O'Callaghan, P.T., et al., *A Novel Approach to Forensic Investigation: Three-Dimensional Kinematic and Kinetic Motion Analysis*. Journal of Clinical Forensic Medicine, 2001. **8**: p. 49-53.

## Case Studies

1. Australia, N.I.o.F.S. *Forensic Fact Files: Case Studies*. 2001 [cited 2005 18 September]; Available from: <http://www.nifs.com.au/FactFiles/serology/case.asp?page=case>.
2. Barnes, D., *Intermittant Projected Bloodstains*. International Association of Bloodstain Pattern Analysts News, 1998. **14**(2): p. 6-8.
3. Bettilyon, A.D., *Homicide vs. Suicide: A Bloodstain Study*, in *International Association of Identification Meeting*. 1996: Greensboro, North Carolina.
4. Bettilyon, A.D., *Case Presentation: "Reconstruction of a Domestic Homicide"*, in *International Association of Identification Meeting*. 1997.
5. Bettilyon, A.D., *Bloodstain Pattern Analysis in Homicide Cold Case Investigations*, in *Cold Case Homicides: Practical Investigative Techniques*, R.H. Walton, Editor. 2006, CRC Press/Taylor & Francis Group: Boca Raton, Florida. p. 463-476.
6. Black, J.P., *Contradiction of Suspect's Statements Using Bloodstain Analysis*, in *International Association for Identification*. 2002: Las Vegas, Nevada.
7. Block, M. and M. Gaynor, *Case Presentation: "Bloodstains Tell a Different Tale"*, in *International Association of Identification Meeting*. 1997.
8. Burnett, B.R., J.M. Orentes, and M.L. Pierson, *An Unusual Bloodstain Case*. Journal of Forensic Sciences, 1997. **42**(3): p. 519-523.
9. Cortner, G.V., *Crime Scene Reconstruction: A Case of Blood Stain Interpretation Five Years After the Crime Occurred*. Tieline, 1986. **11**(1): p. 50-55.
10. Englert, R., *Pulverised Bright Green Threads and High Velocity Blood Spatter unravel the Mystery of a Crime: a Homicide case study with no Body*. International Association of Bloodstain Pattern Analysts News, 1996. **12**(1): p. 15.
